

Applied Economics (APEC)

Skill Series

FALL 2023 SERIES PRESENTS:

TERRY HURLEY

PROFESSOR, DEPARTMENT CHAIR

Insights from the Theory of the Firm into Structural and Reduced Form Equation Modeling

Time:

Wed. Oct. 11th, 2-3PM CT

Place:

119 Ruttan Hall

Zoom Option:

<https://umn.zoom.us/j/98749918936>

Details:

ABSTRACT:

In this skill building seminar, I will review the firm's cost minimization problem with an eye toward developing both structural and reduced form estimating equations under both perfectly competitive and monopolistic output markets. We will discuss the feasibility of estimating these equations under different informational assumptions as well as parameter interpretation and hypothesis testing in the context of common economic questions.
